Sir,

Refering to Government Proceedings No.7203-6/ML 199-13 dated 23rd January 1914 directing that the Harihar water works should be handed over by the D. P. W. to the Harihar Municipality for working tentatively for one year commencing from 1st July 1914, I have the honor to state that the Executive Engineer, Water Supply and Stores Division has addressed the President of the Municipality in the matter of deputing an officer of the municipality to receive charge of the water works Further it has been intimated that the working staff viz, Driver and the Inspector now attached to the water works would be withdrawn from 1-7-1914 and that the D. P. W. has not made any arrangements for the supply of kerosine oil or any other stores required for working the plant during the ensuing year

2 The matter having been discussed at a special meeting of the Municipal Council, it has been resolved that the Vice President of the Municipality may take charge of the water works

3 As regards the proposal of the Executive Engineer to withdraw the staff now working the plant, the Municipal Council request that the present establishment of the water

works

works may be allowed to continue till the end of September 1914 by which time they hope to secure the services of competent staff and also see to the required supply of oil etc

4. I am of opinion that the life of the machinery may be endangered if the management of the plant is left entirely in the hands of an inexperienced staff I beg therefore to suggest that the present experienced staff employed by the D. P. W. may be ordered to continue to work under the supervision of the municipality till the end of the official year 1914-15, the necessary stores also being supplied by the D P W

5 Moreover, the Executive Engineer, Water supply and Stores Division states that the present oil engine of the water works being out of order is in a dangerous condition and that it has to be replaced immediately by a new one The matter is under correspondence between the Municipal Council and the D. P. W through me At this stage especially, it does not seem advisable to transfer the charge of the works to the Municipality without proper facilities being afforded to them

6 In these circumstances I request that you will be so good as to move the Government to pass early orders in the matter A copy of the resolution of the Municipal Council is submitted herewith

I have the honor to be,

Read letter from the Executive Engineer Water works Division Stating that he is going to withdraw the Staff now working at the pumping Station etc and requesting to be intimated as to the name of the Officer to whom the pumping work should be handed over.

Resolved that the Vice President is the Officer to whom the Charge of the works with the Stores, Etc shall be handed over.

That as regards the proposal of the Executive Engineer to withdraw the Staff now working at the works from 1st July 1914, the Municipal Council beg to state that the Govt. Order transferring the Charge of the water works from the P.W.D. to the Municipality did not give the Municipality to understand that they would withdraw the existing Staff or leave the Municipality to supply fund its own Store for the works Now that the Executive Engineer proposes to Carry out the above mentioned two Suggestions the Municipality request that notice being not sufficient for them to advertise and to secure both the Staff and Coolies for the requisite Store, that the present Staff be allowed to continue to work under the Supervision of the Municipality and the usual Store supplied for a period not more than 3 months

by which time the capability [illegible] to secure Competent Staff as well as the necessary Stores

Resolved that Advertisements be published Calling for tenders for supplies & as regards Staff
